DINTEK 1U Brush Type Management Panel

DINTEK ezi-MANAGE™ Brush Type Cable Management Panels mount in a standard 19 inch rack or cabinet and are utilized in place of standard blanking panels to allow cables to pass through between the front and rear of the rack cabinet.

The brush structure allows the user to therefore organize cables while keeping dust and dirt out of the cabinet while still providing thermal protection to maintain hot aisle/cold aisle isolation.
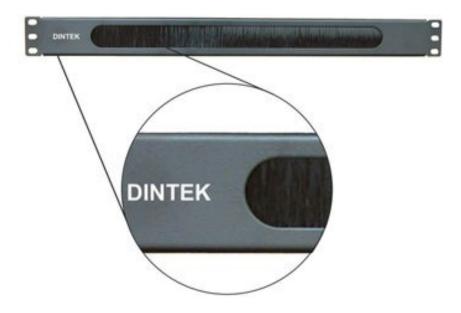

Constructed of high-quality steel with high-density nylon bristles, the ezi-MANAGE™ Brush Type Cable Management Panel creates a clean looking point of entry and offers cable separation for simple cable organization. The brush panel also promotes proper airflow through the rack by closing off open spaces between equipment.

Benefits

- Separate and organize cables through a dense nylon brush strip
- Help maintain the efficiency of your cooling system
- Reduce dust accumulation near valuable server equipment
- Tidy presentation with bristles that surround your cables

Applications

- For use with server racks and cabinets
- For use in structured wiring closets (FDA & BDA)
- Used for network cabling to keep cables neat and tidy

Hardware Characteristics

- Industry Standards: EIA/ECA-310-E
- Mounting Options: Front Mount (Front Only)
- Orientation: Horizontal
- Panel Height: 1U

Physical Characteristics

- Color: Black
- Panel Finish: Powder Coat
- Panel Thickness: ~1.2 mm
- Material: Steel
- Panel Height: 43.7 mm [1.7 in]
- Panel Width: 485 mm [19.1 in]
